

Redington partners with top firms to drive solar adoption and promote green energy solutions nationwide

~Redington will enhance its existing range of solar products and expand their availability through new partnerships.

Indore, 3rd March 2023: Redington Limited (NSE: REDINGTON), a leading technology solutions provider, has partnered with leading companies such as **Navitas Solar, Credence Solar, Emmvee Solar and U GRO Capital** to distribute energy-efficient solutions across the country. These partnerships will help accelerate the widespread adoption of energy-efficient solutions and ensure seamless delivery of solar products to customers across the country.

The partnership announcement was announced in Indore, where all players were present, showcasing their commitment towards promoting sustainable energy solutions and boosting India's green energy transition.

In addition to strengthening Redington's existing portfolio of solar products, these partnerships will not only help in promoting the adoption of clean energy but also help in reducing the technology friction by making the latest technology products easily available to Redington's partners.

"We are delighted to be partnering with these four leading companies to promote the adoption of clean energy across India. Redington is committed to providing the latest technology products and innovative solutions to our partners and customers. We believe that these partnerships will help accelerate the adoption of energy-efficient solutions and also help us achieve our vision of a sustainable future," said **Pradeep Srikanthan, Business Head of Redington Solar**.

Redington is committed to reducing the carbon footprint and promoting the use of renewable energy. The company's partnership with **Navitas Solar, Credence Solar, Emmvee Solar, and U GRO Capital** will help achieve this goal by making high-quality solar panels available to customers across the country. The company believes that solar power has the potential to transform India's energy landscape and is committed to playing an active role in this transformation.

Credence Solar produces high-efficiency panels with a focus on performance and reliability, including the highest power class of 650 Wp approved by BIS. Redington will stock these panels in over 50 warehouses and offer them to more than 3000 solar partners. **EMMVEE Solar** is a well-established company known for its high-quality solar photovoltaic panels, and Redington will stock their Mono & Poly Crystalline Solar Panels in over 30 warehouses for more than 3000 solar system integrators.

Navitas Solar provides expertise in solar power, battery energy storage systems, encapsulants, and solar EPC services, and has a wide network of channel partners and dealers, and a manufacturing facility capable of producing 500 MW p.a. **U GRO Capital** is a technology focused small business lending platform that provides customized loan solutions to small businesses. Through these partnerships, Redington aims to bring about a significant shift in the energy consumption patterns of the region by providing easy access to energy-efficient solutions across India.

About Redington Ltd:

Redington Limited, an integrated technology solutions provider and a Fortune 500 company, enables businesses in their digital transformation journeys by addressing technology friction – the gap between innovation and adoption. With presence across 38 markets through 60 subsidiary offices, over 290+ Navitas Solar associations, and 40,000 channel partners, Redington enables seamless and end-to-end distribution for all categories of IT/ITeS, Telecom, Lifestyle, and Solar products in India, Singapore, South Asia, Middle-East, Africa and Turkey. Through its concentrated focus on technology, innovations, and partnerships, Redington is one of the most trusted distributors of products, services, and solutions across the world.
